

December 12, 2015

Fox Thermal Instruments Welding Qualifications:

Welders at Fox Thermal Instruments are certified by The British Standards Institution to Section IX of the ASME Boiler and Pressure Vessel Code. They are also certified in accordance with international standards EN ISO 9606-1:2013 and ES ISO 15614-1:2004. All welding procedure qualification records and welder performance qualifications are available upon request.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rich Cada", is written over a horizontal line.
